

Omar Reda's Infectious Diseases & Tropical Medicine

COMPLETE TABLE OF CONTENTS | Four-volume integrated set

Part I

SECTION I - FOUNDATIONS OF INFECTION AND HOST RESPONSE | p. 10

Chapter 1: Host Immunity in Infections | p. 11

Chapter 2: Cytokines in Health and Disease - A High-Yield Topic in Infectious Diseases and Tropical Medicine | p. 23

Chapter 3: Immunodeficiency States - Primary and Secondary Immunodeficiency in Infectious Diseases | p. 29

Chapter 4: Immunopathogenesis of Infectious Diseases | p. 35

Chapter 5: Sepsis, Septic Shock, and Immunoparalysis | p. 51

Closing of Section I - Foundations of Infection and Host Response (p. 67)

References (p. 68)

SECTION II - FEVER AND SYNDROMIC APPROACH TO INFECTIOUS DISEASES | p. 69

Chapter 6: Fever: Definition, Thermoregulation, and Pathophysiology | p. 70

Chapter 7: Clinical Patterns and Tropical Approach to Fever | p. 74

Chapter 8: Periodic Fever Syndromes and Autoinflammatory Diseases | p. 80

Chapter 9: Fever of Unknown Origin | p. 86

Chapter 10: Fever in the Returning Traveler and Initial Tropical Fever Algorithm | p. 94

Chapter 11: Fever with Rash, Hemorrhage, Shock, and Jaundice | p. 97

Chapter 12: Fever with Cytopenia, Lymphadenopathy, Eosinophilia, and Hepatosplenomegaly | p. 99

Chapter 13: CNS Infection Syndromes and Acute Flaccid Paralysis | p. 101

Chapter 14: Organ-Based Fever Syndromes and Fever in Immunocompromised Hosts | p. 105

Closing of Section II (p. 109)

References / Suggested Reading (p. 110)

SECTION III - VIRAL INFECTIONS | p. 111

Chapter 15: General Principles of Viral Infections | p. 112

Chapter 16: Antiviral Therapy | p. 139

Chapter 17: Viral Hemorrhagic Fevers | p. 157

Chapter 18: Arboviruses | p. 208

Chapter 19: Encephalitis | p. 216

Chapter 20: Herpesviruses | p. 224

Chapter 21: Respiratory Viral Infections | p. 240

Chapter 22: Rabies | p. 259

Chapter 23: HIV Infection and AIDS | p. 267

Chapter 24: Viral Hepatitis in Tropical Medicine | p. 320

Closing of Section III (p. 344)

Part II

SECTION IV - FUNGAL INFECTIONS

Chapter 25: Fundamentals of Medical Mycology

Chapter 26: Antifungal Therapy: Principles, Drugs, Doses, Spectrum, Toxicity, and Medical Importance

Chapter 27: Major Opportunistic Fungal Infections

Chapter 28: Endemic Fungal Infections

Chapter 29: Subcutaneous and Implantation Mycoses

Chapter 30: Superficial, Cutaneous, and Mucocutaneous Mycoses

Chapter 31: Allergic Fungal Diseases and Mycotoxicosis

[Section IV appendices](#)

SECTION V - PARASITIC INFECTIONS

Chapter 32: Fundamentals of Medical Parasitology

Chapter 33: Immunology to Parasitic Infections

Chapter 34: Malaria, Babesiosis, and Intraerythrocytic Protozoa

Chapter 35: Tissue and Blood Protozoa

Chapter 36: Intestinal, Urogenital, and Opportunistic Protozoa

Chapter 37: Trematodes: Blood, Liver, Lung, and Intestinal Flukes

Chapter 38: Cestodes: Adult Tapeworms and Larval Tissue Disease

Chapter 39: Intestinal Nematodes

Chapter 40: Tissue Nematodes and Filarial Infections

Chapter 41: Medical Arthropods and Vector-Borne Parasitology

Chapter 42: Mixed Parasitic Infections and Syndromic Approach in Endemic Areas

[Section V roadmap](#)

[Section V appendix](#)

Part III

SECTION VI - ENVIRONMENTAL HEALTH HAZARDS AND ENVENOMATION

Chapter 43: Fundamentals of Environmental Emergencies and Envenomation

Chapter 44: Snakebite Envenoming

Chapter 45: Scorpion Stings and Terrestrial Arthropod Envenomation

Chapter 46: Heat Illness and Heat Stroke

Chapter 47: Hyperthermic Syndromes and Fever Mimics

Chapter 48: Cold, Altitude, Drowning, Electrical, and Lightning Injuries

Chapter 49: Toxic Environmental and Rural Exposures

Chapter 50: Integrated Environmental Emergency Algorithms

SECTION VII - BACTERIAL INFECTIONS

Chapter 51: General Principles of Bacterial Infections

Chapter 52: Gram-Positive Cocci

Chapter 53: Bacterial Toxin-Mediated Disease

Chapter 54: Acute Rheumatic Fever and Infective Endocarditis

Chapter 55: Bacterial Pneumonia and Respiratory Bacterial Infections

Chapter 56: Meningitis: Emergency Approach, CSF Logic, and Differential Diagnosis
 Chapter 57: Acute Meningitis Syndromes: Bacterial, Meningococcal, Aseptic/Viral, and Healthcare-Associated
 Chapter 58: Subacute, Chronic, Opportunistic, and Eosinophilic Meningitis
 Chapter 59: Gram-Positive Bacilli
 Chapter 60: Clostridial Diseases and Clostridioides difficile Infection
 Chapter 61: Gram-Negative Bacilli: Core Logic, Enterobacterales, UTI, Bacteremia, and Resistance
 Chapter 62: Salmonella, Shigella, Enteric Fever, Dysentery, and Chronic Salmonellosis
 Chapter 63: Curved Rods and Water/Foodborne Gram-Negative Infections
 Chapter 64: Food Poisoning and Outbreak Gastroenteritis
 Chapter 65: Non-Fermenting and Healthcare-Associated Gram-Negative Bacilli
 Chapter 66: Environmental and Water-Associated Bacterial Infections
 Chapter 67: Tuberculosis: Core Pulmonary and Systemic Framework
 Chapter 68: Extrapulmonary, Gastrointestinal, and Abdominal Tuberculosis
 Chapter 69: Nontuberculous Mycobacteria and Leprosy

Part IV

SECTION VII - BACTERIAL INFECTIONS (CONTINUED)

Chapter 70: Zoonotic and Animal-Associated Bacterial Infections
 Chapter 71: Spirochetal Infections
 Chapter 72: Rickettsial and Related Intracellular Bacterial Infections
 Chapter 73: Bartonella and Culture-Negative Fastidious Bacterial Disease
 Chapter 74: Chlamydial and Mycoplasmal Infections
 Chapter 75: Sexually Transmitted Bacterial Infections
 Chapter 76: Opportunistic, Healthcare-Associated, and Device-Associated Bacterial Syndromes
 Chapter 77: Bacterial Skin, Soft-Tissue, Bone, Joint, and Tropical Ulcer Syndromes
 Chapter 78: Principles of Antibacterial Therapy and Antimicrobial Stewardship
 Chapter 79: Antimicrobial Resistance and Global Bacterial Threats
 Chapter 80: Integrated Bacterial Infection Algorithms

SECTION VIII - APPENDICES AND CLINICAL COLLECTIONS

Appendix A: Fever and General Clinical Collections
 Appendix B: Organ and System Collections
 Appendix C: Hematologic, Biochemical, and Pathologic Pattern Collections
 Appendix D: Parasitology Collection Bank
 Appendix E: Exposure, Transmission, Vector, and Epidemiologic Collections
 Appendix F: Diagnostic and Specimen Collections
 Appendix G: Therapeutic and Preventive Collections
 Appendix H: Infection Associations and Classic Examination Collections
 Appendix I: Final Oral Examination Index

Page numbers are included only where supplied for Part I; no page numbers were provided for Parts II-IV.
